EXPERIENCE

Saral ERP Solutions Pvt Ltd. | *Software Developer*

08/2024 - Present

- **Technologies:** ASP.NET, VB.NET, Microsoft SQL Server
- Gained knowledge of ASP.NET with SQL Server, enhancing skills in web application development and server-side programming.
- Optimized ERP modules, enhancing system efficiency by **30%** and reducing downtime by **20%**.
- Collaborated with **5+** cross-functional teams, improving workflow efficiency by **25%** and accelerating project delivery by **15%**.

Digital-Bhem | *Intern*

06/2023 - 07/2023

- Gained hands-on experience in front-end and back-end development, contributing to multiple projects with a focus on performance optimization.
- Completed tasks **20%** ahead of deadlines, demonstrating strong time management and organizational skills.

EDUCATION

Meerut Institute of Engineering and Technology, Meerut (U.P)

2020 - 2024

B.Tech in Computer Science and Engineering (AI)

CGPA: 7.8

Radha Govind Public School, Meerut (U.P)

2019 - 2020

Senior Secondary - CBSE Board

Percentage: 84%

SJS Public School, Rae-Bareli (U.P)

2017 - 2018

Higher School - CBSE Board

Percentage: 89%

SKILLS

Languages/Technologies: Java , ASP.NET, VB.NET, C#, Python

Web Development: JavaScript, HTML5/CSS3, React JS, MySQL, SQL Server

Coursework: Database Management, Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Computer Networks

PROJECTS

Employee Attendance Management System | *ASP.Net, C#, Python, SQL Server*

- Implemented features to support **live face recognition attendance with different camera support, manual attendance entry**, and **bulk attendance import** for flexible employee tracking.
- Used ADO.NET and pyodbc for seamless communication between Python scripts and SQL Server database.
- **GitHub:** [Project Link](#)

Document - Encryption/Decryption | *Java, Netbeans*

- Developed a secure document encryption tool, boosting efficiency by **45%**.
- Created a user-friendly UI, enhancing accessibility by **60%** of encryption/decryption operations for non-technical users.
- **GitHub:** [Project Link](#)

Hand Sign Recognition System | *Python, ML*

- Developed a Hand Sign Recognition System capable of detecting hand gestures with **92%** accuracy.
- Implemented an LSTM model to capture temporal dependencies in gestures, improving recognition speed by **30%**.
- **GitHub:** [Project Link](#)

CERTIFICATIONS

- Attained “Java – Basics” Certification from **HackerRank**, affirming a strong foundation in **Java programming**.
- Acquired certification in “HTML & CSS” from **Cisco & HackerRank**, showcasing proficiency in front-end web development.
- Introduction to Cyber Security Certification: Completed the certification offered by **Cisco**, enhancing knowledge in **Cyber security fundamentals**.
